ABDALLAH BETTAHAR

Civil Engineer – QA/QC Supervisor | Oil & Gas

+213 6 71 98 95 45 | A.bettahar@outlook.com | Ain Defla, Algeria | linkedin.com/in/abdallah-bettahar-872218158

PROFESSIONAL SUMMARY

Civil Engineer and QA/QC Supervisor with over 9 years of professional experience on construction sites and gas field development projects in Algeria (Hassi R'Mel, Hassi Messaoud). Expertise in quality control of civil works (earthworks, reinforcement, formwork, concreting), concrete and geotechnical testing, review of drawings and Inspection and Test Plans (ITP), non-conformance reporting (NCR) and compliance with Oil & Gas HSE requirements. Experienced in multidisciplinary coordination, site workforce and material management, and progress reporting.

CORE SKILLS

- QA/QC: drawing review, Inspection and Test Plans (ITP), method statements, inspections and work acceptance
- Civil works supervision: earthworks, backfilling, compaction, reinforcement, formwork, concrete pouring
- Concrete testing: mix design, slump test, test cubes/cylinders, compressive strength
- Geotechnical testing: Proctor, in-situ density, compaction
- Non-Conformance Reports (NCR), daily reports, site reports, progress reports
- HSE and Oil & Gas contractual requirements
- Multidisciplinary coordination, workforce, materials and quantity management

PROFESSIONAL EXPERIENCE

Civil QA/QC Engineer **09/2024 – Present**

ENGTP – National Company for Major Petroleum Works | Hassi R'Mel, Laghouat, Algeria

- Supervised and quality-controlled civil works on the TFT II gas development project (TFT South Offsite gathering network, 24 producing wells) and the GTFT project (extension, 11 new wells).
- Reviewed drawings and ITPs; inspected earthworks, reinforcement, formwork and concreting against technical specifications, HSE standards and contract requirements.
- Monitored concrete mix design and testing (slump test, test specimens, compressive strength) and geotechnical tests (Proctor, in-situ density, compaction).
- Coordinated with multidisciplinary teams and prepared progress reports; tracked workforce and materials.

Common Services Supervisor **04/2021 – 08/2024**

Smartest Algeria | Hassi Messaoud, Ouargla, Algeria

- Coordinated company services and site administration.
- Managed site logistics, on-site catering and customer service.

Civil Engineer – Site Manager **05/2021 – 12/2021**

Al Ghaith & Company | Ain Defla, Algeria

- Site manager for the 1,000 AADL housing units project: overall site supervision and management of production teams.
- Inspected reinforcement, formwork, concrete dosage and structural dimensions; ensured compliance with construction drawings and technical specifications.
- Monitored progress and schedule with trades and subcontractors; verified quantities and site supplies.
- Attended site meetings and work acceptance with the project supervisor (engineer); enforced HSE rules and issued site reports.

Site Civil Engineer **04/2016 – 06/2019**

SARL EMOC-BAT | Ain Defla, Algeria

- Supervised site works and quality-controlled structures (reinforcement, formwork, concreting).
- Managed workforce and equipment; issued daily reports and site reports.
- Closed out non-conformance reports in coordination with the project supervisor.

Site Civil Engineer **10/2014 – 10/2015**

ETB Mataoui AEK | Ain Defla, Algeria

- Supervised site works, quality-controlled structures (reinforcement, formwork, concreting), managed workforce and equipment, and issued daily and site reports.

EDUCATION

Master's Degree in Civil Engineering – Geotechnics **2013 – 2015**
Hassiba Benbouali University of Chlef, Faculty of Civil Engineering and Architecture

Bachelor's Degree in Civil Engineering – Civil and Industrial Structures **2012 – 2013**
University of Khemis Miliana, Faculty of Science and Technology

Preparatory Classes in Science and Technology **2009 – 2012**
Preparatory School of Science and Technology, Tlemcen

TECHNICAL & COMPUTER SKILLS

- Software: AutoCAD, Civil 3D, Covadis, Plaxis, GEO5
- Office: Microsoft Word, Excel, PowerPoint
- Programming: C++
- Geotechnical testing equipment

LANGUAGES

- Arabic: native
- French: fluent (read, spoken, written)
- English: read, spoken, written

ADDITIONAL INFORMATION

- Driving licence: category B
- Military service: completed / exempt from all obligations
